Profile

I am looking for a logistics or operations support role that combines practical work with coordination and reporting. I have worked on temporary warehouse assignments in Denmark, using a warehouse management system for inbound and outbound tasks. I also taught logistics and supply chain modules part-time at IBA Kolding. My earlier business support work at WTS Agency ApS included customer enquiries, administrative follow-up and management reporting.

Core Skills

Operations support: Customer enquiries, administrative follow-up, documentation, daily coordination and management reporting.

Data and tools: Warehouse management system (WMS), Excel-based analysis, financial calculations, Microsoft Office and Outlook.

Logistics knowledge: Transport, inventory, warehousing, risk and sustainable supply chains, taught through coursework and company cases.

Relevant Logistics and Operations Experience

Warehouse Assistant | Temporary assignments
Summer 2026 | NORMAL, Hedensted; Watery, Horsens, Denmark

- Carried out receiving, picking and packing work, using a warehouse management system (WMS) for inbound and outbound tasks.

Logistics and Supply Chain Lecturer | IBA Erhvervsakademi Kolding
Feb 2025–Jun 2026 | Kolding, Denmark · Part-time

- Taught International Logistics, Sustainable Supply Chains and Global Supply Chain and Logistics at BA and MA level.
- Prepared workshops and assessments covering transport, inventory, warehousing, outsourcing, risk and digital supply chains.
- Used teaching cases about Danfoss, LINAK, ABENA, Blue Water Shipping, NEL and Bunker Holding.
- Coordinated course materials, deadlines, student support and assessment tasks.
- Helped students analyse business problems and prepare Excel-based reports.

Business Support Specialist | WTS Agency ApS
Feb 2024–Nov 2024 | Kolding, Denmark

- Handled customer enquiries by phone, email, live chat and in person.
- Supported client outreach, administrative follow-up and daily business coordination.
- Prepared financial calculations and management reports and collected market and competitor information.
- Maintained websites and digital platforms and helped improve internal workflows.
